Description

The church is located in the main street that cuts through the upper part of the historic center called Cittanuova. Its construction began in 1299 with the intention of replacing the pre-existing church of San Pietro all'Orto which could no longer contain the expanding population of Masseto. The church represents the greatest example of Gothic architecture after the Cathedral of San Cerbone. The church houses the relics of San Bernardino, known as "da Siena" but born in Massa Marittima in 1380.
