## Description

The first attestation of the existence of a church dedicated to St. Michael dates back to August 14, 987. The church we see today is the result of numerous embellishment interventions that took place from the Middle Ages until the last century. The first documented works began after 1259, the year in which the church was elevated to the title of priory, that is, it was no longer entrusted to a single parish priest, but to a community of priests.
